1 ABOUT SUBSCRIPTION PLUGIN

This plugin streamlines product buying and selling through subscriptions and recurring payments to develop consistent revenue yields. The shop admin can create subscription plans that vary in fee types (trial, initial, % of regular), subscription extending options, and much more.

The Novalnet Subscription plugin for Shopware 6 comes with the following features:

- Allow end-users to buy one-off products and subscriptions in one mixed cart.
- Set up subscription payments for multiple products with ease.
- Allow end-users to change payment methods and cancel subscriptions.
- Allow switching subscription products and quantity.
- Subscription management is enhanced for suspending, reactivating, and changing the next cycle date process.

This Plugin version (2.4.1) supports the following versions of Shopware 6:

To get started:

1. Log in to your Shopware 6 shop system.
2. Ensure that you have extracted the subscription plugin package from the zip file you received. If you received only the installation guide without the subscription plugin package (zip file), please email technic@novalnet.de with your merchant ID.

2 PLUGIN INSTALLATION

2.1 Plugin Installation via Package

To install the Novalnet Subscription Plugin, please go to your shop system and follow the steps below.

Step 1: Navigate to **Extensions** → **My extensions** are in your shop admin panel, as shown below.

Figure 1

Step 2: Click **Upload extension** and choose the **NovalnetSubscription.zip** file that you will find included in the Novalnet Shopware plugin package.

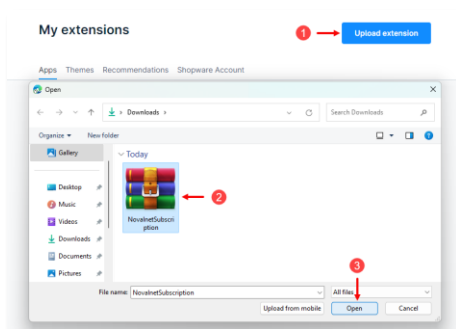

Figure 2

Step 3: Once uploaded, the **Subscriptions** plugin will be shown under the **Apps** tab as shown below.

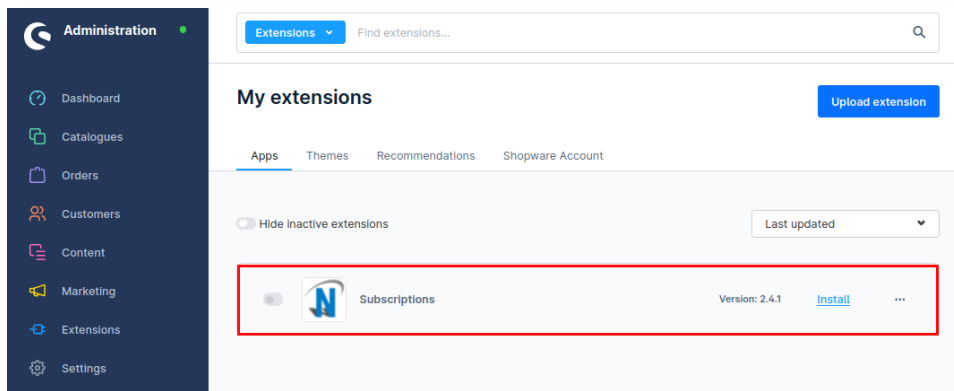

Figure 3

Step 4: Next, click **Install** to install the Novalnet Subscription plugin.

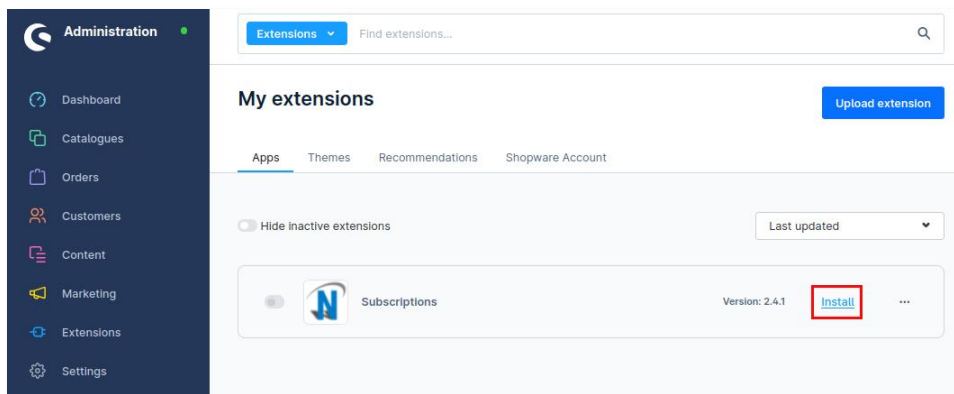

Figure 4

Step 5: Then, click  the toggle switch to activate the **Subscription** plugin.

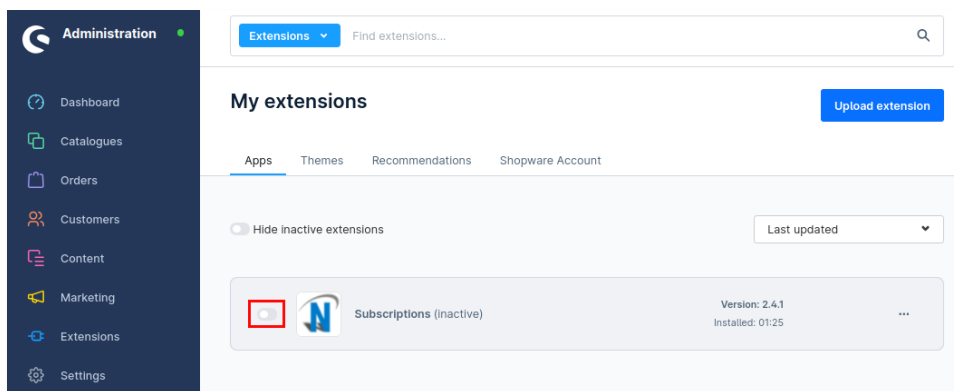

Figure 5

2.2 Upgrading the Subscription Plugin

- ① You can get the updated plugin directly from the Shopware store or by contacting our [technical team](#).
- 👉 An earlier version of the Novalnet Subscription plugin should be installed in the shop to update the store.

2.2.1 Update (Local Update)

You can update the Novalnet Subscription plugin to the current version in your shop backend without changing the previous product subscription configuration.

- 👉 A Shopware account is not required to update the Novalnet Subscription plugin in your shop system.

Step 1: Navigate to **Extensions** → **My extensions** and click **Upload extension** as shown in [Figures 1](#) and [2](#).

Step 2: Click the  icon under **Subscriptions** and then click **Update to [version number]**.

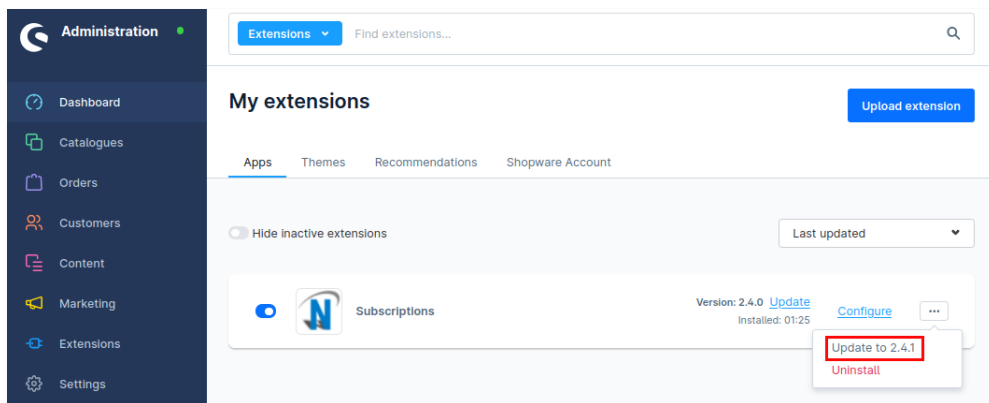

Figure 6

Step 3: Next, the updated version of the Subscriptions plugin will be listed under the **Apps** (as shown in the image below).

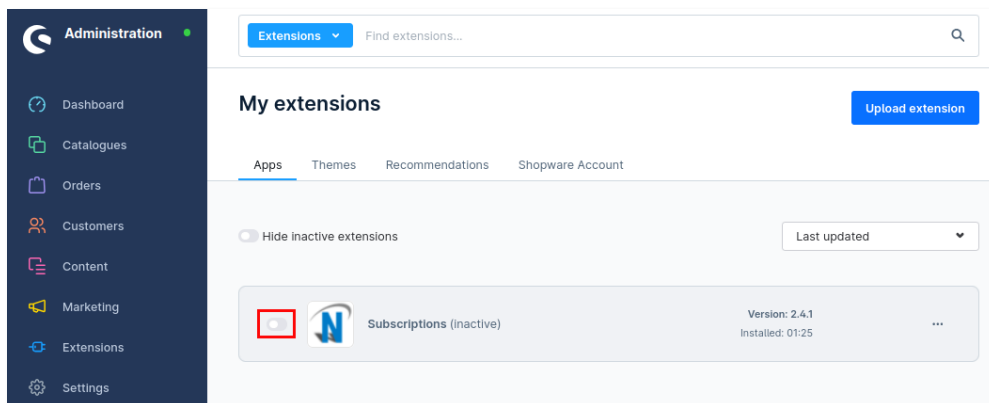

Figure 7

Step 4: Uninstall the plugin as a next step to update it.

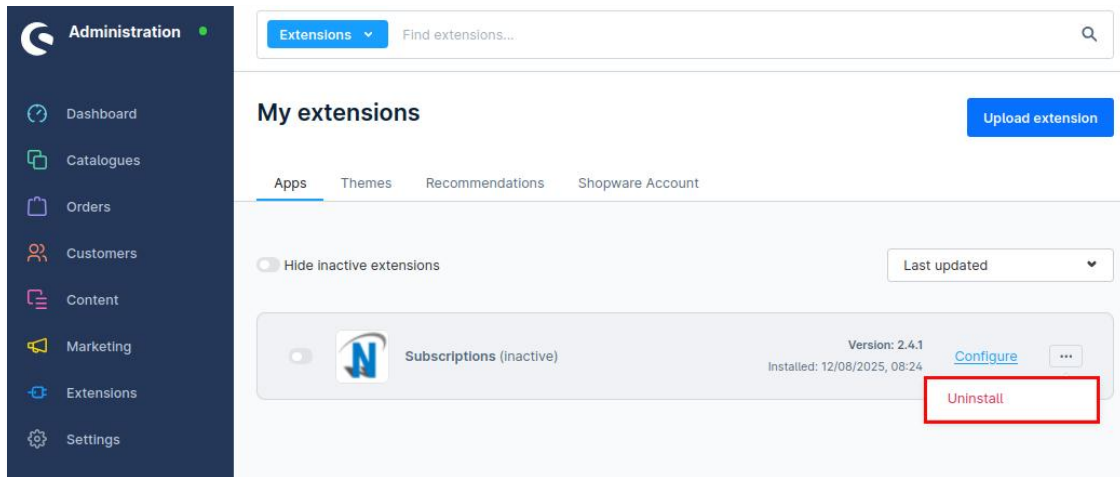

Figure 8

Step 5: In the pop-up notification, click **Uninstall**.

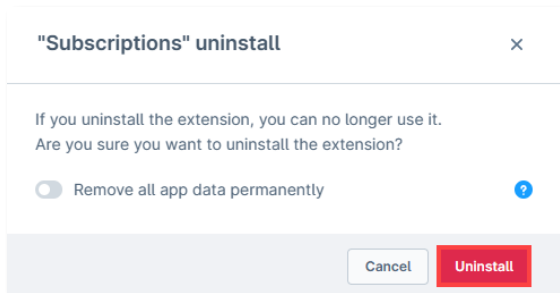

Figure 9

Step 6: Refer to the topic [2.1 Plugin Installation via Package](#) to install the plugin, as shown in [Figures 4](#) and [5](#).

3 MANAGING SUBSCRIPTION

3.1 Subscription configuration

To see the configurations, navigate to **Extensions** → **My extensions** and click **Configure** from the options as shown below.

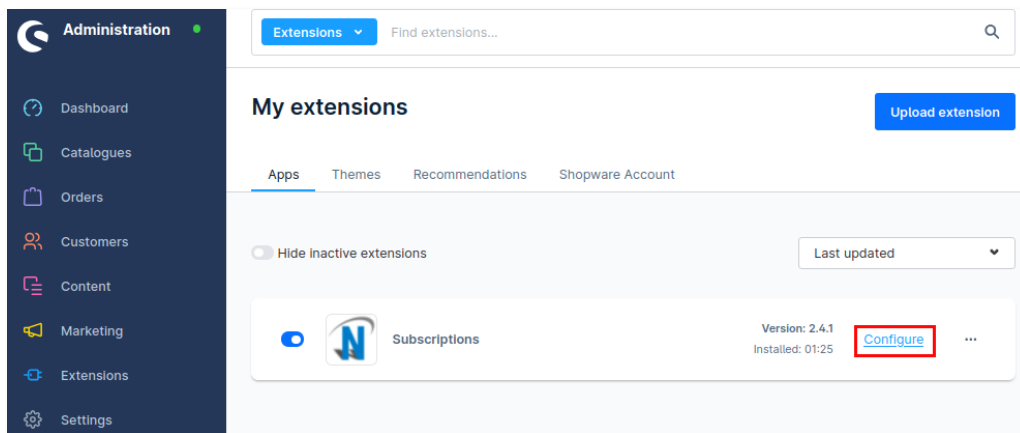

Figure 10

The subscription configuration page will be displayed as shown below.

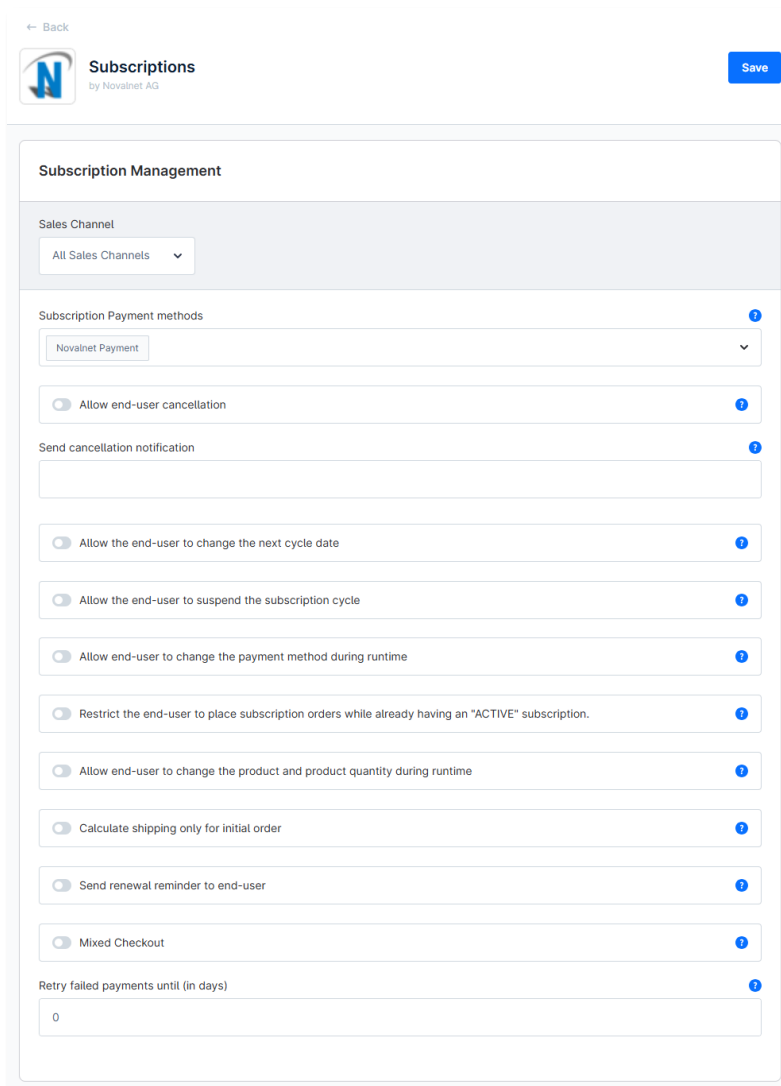

Figure 11

3.1.1 Dynamic Subscription Product Group Creation

Go to **Catalogues** → **Dynamic product groups** → **Add dynamic product group** as shown below.

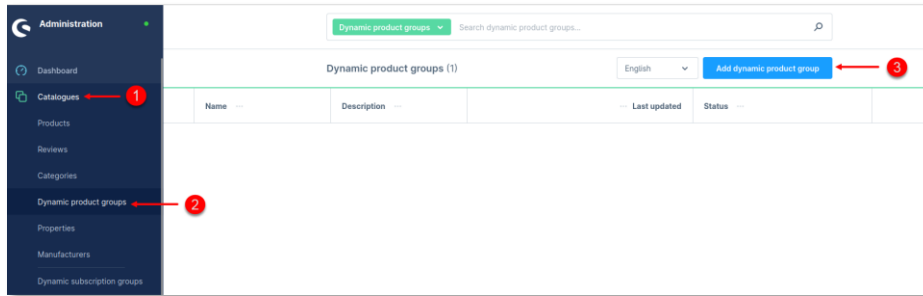

Figure 12

Provide a group name and other details to create a product group. Choose all the products under the Conditions drop-down and click **Save**.

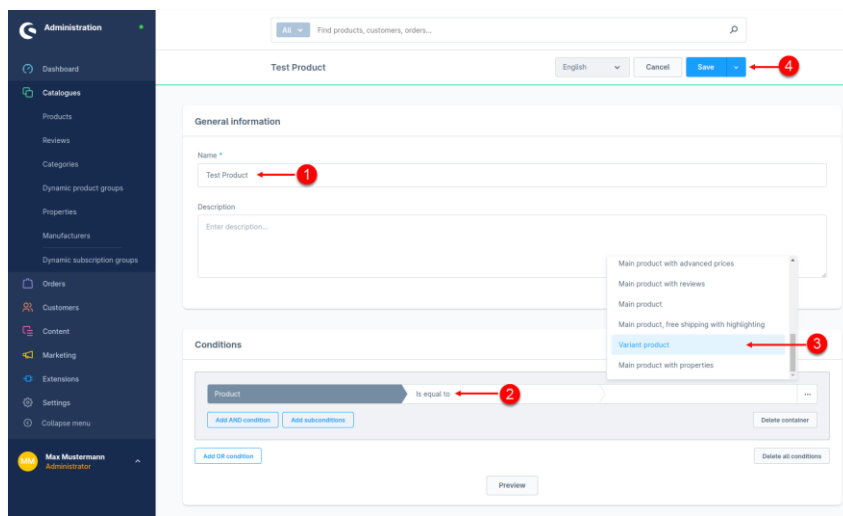

Figure 13

The dynamic product group is listed below.

Figure 14

Go to **Catalogues** → **Dynamic subscription groups** → **Add dynamic subscription group** as shown below.

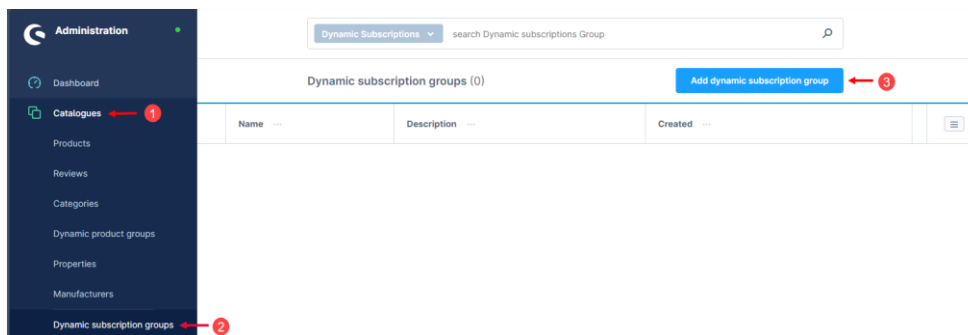

Figure 15

Under **Subscription Mode**, enable the **Activate Subscription**, select the dynamic product groups option for the product detail page from the drop-down menu, provide the other settings, and click **Save**. The subscription settings cannot be modified under the products group.

Figure 36

3.2 Subscription configurations based on individual and variant products

To view the subscription configuration in an individual product, navigate to **Catalogues** → **Products**, select a product, and choose the **Subscription** tab as shown below.

The screenshot shows the 'Main product with properties' configuration page. The left sidebar contains a navigation menu with 'Catalogues' (1) and 'Products' (2) highlighted. The main content area has tabs for 'General', 'Specifications', 'Advanced pricing', 'Variants', 'Layout', 'Subscription' (3), 'SEO', 'Cross Selling', and 'Reviews'. The 'Subscription' tab is active, showing 'General information' with fields for 'Name' (Main product with properties), 'Manufacturer' (Shopware Fashion), 'Product number' (SWDEMO10007), and a 'Description' text area containing placeholder text.

Figure 37

The configuration page will be displayed as shown below.

Figure 38

To view the subscription configuration in a variant product, navigate to **Catalogues → Products**, select a variant product, and choose the **Variants** tab as shown below.

3.3 Readme Instructions for Payment Providers to Integrate with their Payment Gateway

Token Generation During the Initial Subscription Request:

During the initial subscription request, the subscription plugin will send the **isSubscriptionOrder** flag in the **Request** object when calling the **pay** function within the Payment Handler file. Based on this flag, it is recommended that payment providers (excluding Novalnet Payments) tokenize the card, account, or wallet details and securely store the token in the database.

Recurring Payment handling

For recurring payments, the subscription plugin triggers the recurring function from the Payment Handler file. It is recommended that payment providers implement this recurring function (if not already present) and use the previously stored token to handle the payment process for subsequent subscription charges.

For Payment Handler:

```
public function recurring(PaymentTransactionStruct $transaction, Context $context): void
{
    / Payment provider stuffs /
}
```

The changes are already in the Novalnet payment plugin, and this readme is excluded for the Novalnet payment plugin.

4 MANAGING RECURRING PROFILES

4.1 Subscription Orders Overview

Manage the subscription profiles by navigating to **Orders** → **Subscription** as shown below.

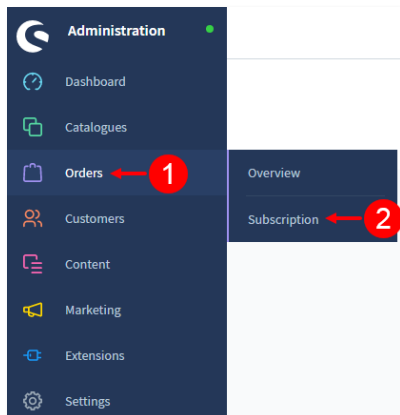

Figure 70

Click **View** to the right of an order as shown below.

Figure 71

The subscription details will be displayed under **Overview** as shown below.

The screenshot shows the 'Subscription' page with two tabs: 'Overview' (selected) and 'Transactions'. The 'Details' section displays the following information:

- Subscription No :** 10047
- Price:** €36.45
- Status:** Active (with a dropdown arrow)
- Next recurring:** 6 February 2024 at 09:38
- Ending Date:** 10 February 2024 at 09:38
- Last Executed Date:** 5 February 2024 at 09:38
- Delivery Interval:** 1 Day(s)
- Duration:** 6 Day(s)
- Free Trial:** NIL
- Current Payment Method:** Prepayment

Buttons for 'Edit Product' and 'Manual Execution' are located at the top right of the 'Overview' tab.

Figure 72

4.2 Recurring profile overview

You can view the recurring order details in the **Transactions** menu as shown below.

The screenshot shows the 'Transactions' menu selected in the sidebar. The 'Order history' table displays the following data:

Cycle	Order number	Status	Date
Free Trial	10044	Success	10 May 2022, 13:27
1	10057	Success	11 May 2022, 10:27

Figure 73

4.3 Manual order creation

The **Manual Execution** button will be available inside a subscription order, using which the merchant can create a recurring order without waiting for the cron to run.

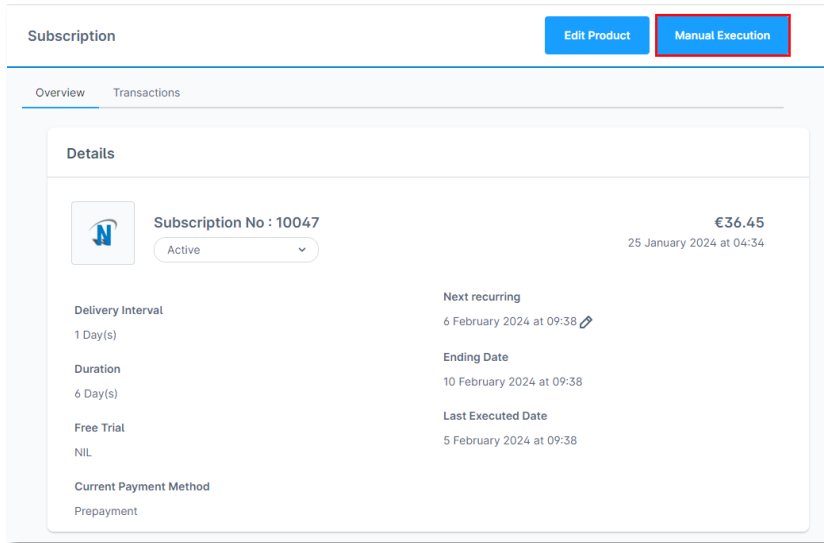

Figure 74

An overlay will confirm recurring order creation once the manual order creation is clicked.

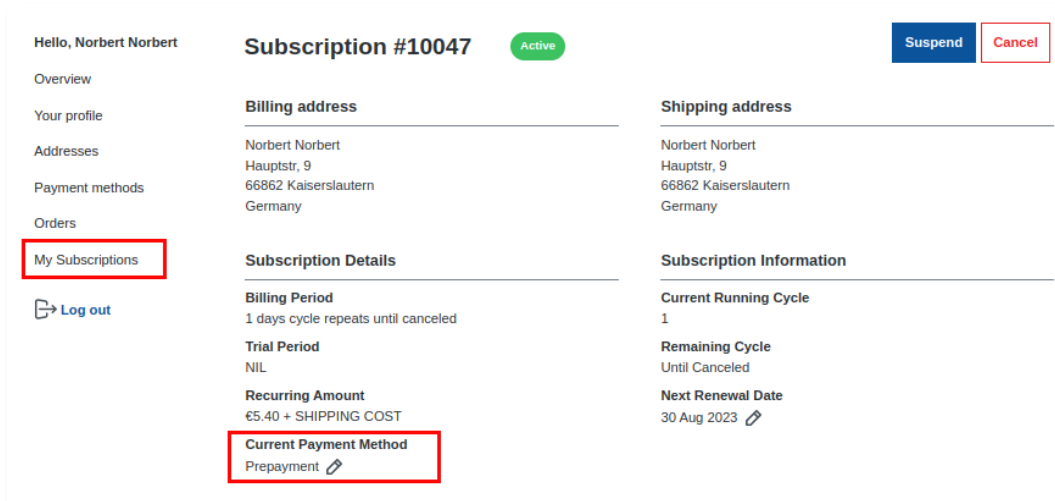

Figure 75

Click **Continue** to create a recurring order.

4.4 Subscription change payment

Changing the payment method in the shop front-end (For end users)

Under **My Account** → **My Subscriptions**, the end user can change the payment method used for paying a particular subscription, as shown below.

4.7 Subscription Cancellation from the Shop Admin panel

To cancel the subscription, navigate to **Orders** → **Subscription** in the shop admin panel and choose the subscription order. Next, change the status to **Cancelled** as shown below.

The screenshot shows the 'Subscription' details in the Shop Admin panel. The status dropdown menu is open, showing the following options:

- Active
- placeholder goes here...
- Active
- Pending
- Pending Cancel
- On Hold
- Cancelled
- Suspended
- Failed

The 'Cancelled' option is highlighted. Other details visible include:

- Subscription No**: 10047
- Price**: €36.45
- Next recurring**: 6 February 2024 at 09:38
- Ending Date**: 10 February 2024 at 09:38
- Last Executed Date**: 5 February 2024 at 09:38
- Current Payment Method**: Prepayment

Figure 86

Soon after the order status changes, a cancel window appears. Enter a reason and click **Cancel** as shown below.

A screenshot of a 'Cancel' dialog box. It has a title bar with 'Cancel' and a close button. Below the title bar is a label 'Cancellation Reason *' followed by a text input field. At the bottom, there are two buttons: 'Back' and 'Cancel'. The 'Cancel' button is highlighted with a red border.
